

What actually are Digital Badges?

- A smart and simple way of showing what you're learning from creative experiences.
- An example of the skills language you can use in applications and interviews to explain the skills you've gained.
- A visual tool to connect you to an organisation and display on your website, email signature, LinkedIn profile, CV, and more.
- A way to reflect on your experience, explain your strengths, and stand out from the crowd with a professional portfolio of work.

How to earn a Digital Badge:

Coastal Catalyst has already worked with organisations to offer badges for activities such as podcast workshops, video game events and work experience at creative companies.

Why?

- ✓ Builds your portfolio
- ✓ Helps you stand out
- ✓ Shows off your creative journey

To start earning your own badges:

- 1 Follow Future Creators or Talent Accelerator on IG and the Eric app
- 2 Take part in one of our badged creative activities
- 3 Earn a badge from the organisers
- 4 Store your badges on MySkillsBackpack.uk
- 5 Show them off – digitally or as part of your CV ✨
